Re: Ringaskiddy Playground – Pedestrian Crossing – N28

Dear Mr. O' Regan,

Thank you for your letter of 10 April 2017 regarding the above. The position in relation to your enquiry is as follows.

Proposals regarding safety improvement works, including pedestrian crossings, are matters which are normally developed in the first instance by the relevant road authority, in this case the roads and transportation department of Cork County Council. In order for Transport Infrastructure Ireland (TII) to fully consider any such proposals relating to national roads, the road authority is required to carry out an analysis of the collision history at the location, design an appropriate scheme to deal with the safety issues identified, carry out an economic appraisal of the proposal/fully cost the scheme and prioritise the scheme in relation to other works being proposed by the road authority. Once this has been received from the road authority, TII will consider the proposal, having regard to the level of funding available to TII for national roads generally and the many competing demands for these resources.

I hope that this information is of assistance to you.

Yours sincerely,
